# <Full Name>

<FOOTBALL ANALYTICS · DATA SCIENTIST>

<City, Country> · <email> · <website> · github.com/<id>

## SUMMARY

<Two sentences. What you do, what you have shipped or published, and what you are looking for. Lead with the thing a hiring manager would care about most — a model in production, a paper at a named venue, a dataset you built.>

## SKILLS

| | |
|---|---|
| Programming | <Python, R, SQL, C++> |
| ML / Data | <PyTorch, scikit-learn, pandas, Polars> |
| Domain | <Tracking & event data, spatiotemporal modeling, Bayesian inference> |
| Tools | <Git, Docker, Linux, AWS/GCP> |
| Languages | Korean (native), English (IELTS 7.0), Spanish (DELE A2) |

## EXPERIENCE

**<Organisation> — <Role>** <Start>–<End>

- <Verb + what you built + the number it moved.>
- <Second bullet. Scale matters: rows, matches, users, latency, accuracy.>

**<Lab / Organisation> — <Role>** <Start>–<End>

- <Verb + outcome.>

## SELECTED WORK

- **<Project or paper title>** — <one line on what it does and the result>. *<Venue or repo>*, <Year>.
- **<Project or paper title>** — <one line>. *<Venue or repo>*, <Year>.

## EDUCATION

**<University Name>** <Start>–<Expected 20XX>

<M.S. in Statistics> · <City, Country>

**<University Name>** <Start>–<End>

<B.S. in ...> · <City, Country>

## AWARDS

- <Award / Scholarship>, <Year>
